

PLATFORM AND COMPONENT ENGINEERING MISSIONS : MAXIMIZE ALLIANCE SYNERGY

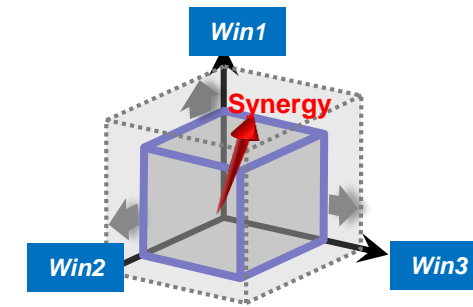

Platform Strategy & Development DEA-PA

- Propose competitive CMF and PF for R & N
- Secure PF strategies [F] synchronized with [V], [U], [S], [T]
- Lead new Platform development until SOP
- Deliver Big Module Strategy

Standardization and Component Strategy DEA-PS

- Define & deploy Common Part Strategy process
- Lead ACM Plan

Component Engineering DEA-PB, DEA-PE

- Develop common design standards, system roadmaps and technical strategies
- Deliver common parts according to Alliance strategies
- Develop components for projects at best QCD performance
- Secure vehicle attractiveness by innovative technology and engineering
